The Orange Peel February 2021

A monthly letter by the Orange County region of the Vintage Chevrolet Club of America (OCVCCA) by and for its members

Bill & Colleen Ingalls, Editors

You can find pictures of all our cars, car events and more on our web site www.ocvcca.org. Mike Sherman, our website designer, up dates and maintains it.

Thank you Mike.

You can now find us on Facebook. Under search, just type in "Orange County Vintage Chevrolet Club of America". There you can add your friends that are interested in Chevy's and write stories about your Chevies.

Business meetings are temporarily postponed. Stay well!

Fellow Chevy Lovers:

I am including a couple of pictures to show my progress on the 55 Chevy rebuild. Fenders, headlight, parking lights are installed and almost all the wiring under the hood is completed. I am planning to get the interior completed in the near future. The drive train is complete but I still need to adjust the clutch and four-speed linkage. I really don't like to work under the car and especially when it is cold out. Will keep on task, keep you updated and continue working.

Looking ahead, Judy& I were able to get our second and final Covid virus vaccine. Yea !!!! It is such a relief to have them completed. It is like a great burden has been lifted from our shoulders. You realize you can still get the Covid disease, but if you should get it, you will probably not be gravely ill or die from it. We hope you are all vaccinated or on the scheduled appointment list. We encourage all of you to get the vaccine. If you live in Orange County to sign up and get the vaccine, just click on the link as follows: Othena.com.

Our year's calendar scheduled events so far:

- **March 13th:** Drive and Picnic at Salt Creek. See details below.
- **May 16, 2021-** Picnic in the Park, Pepper Tree Park, 230 W. First St. Tustin, CA
- **June 19, 2021** Fountain Valley Classic Car, Truck and Trailer show, the F.V Recreation & Sports Park- 16400 Brookhurst Street, Fountain Valley, Ca. 92708
- **October (To be announced) 2021,** our car show at Enderle Center, Tustin.
- **December 5th, 2021,** Holiday Dinner Party, Orange County Mining Co, 10000 Crawford Canyon Road, Santa Ana, Phone 714-997-7411

We are in the process to determine when we will be able to conduct in person meetings and will keep you posted but most likely will not be till summer when the state has determined it is safe to do so.

Take Care everyone and stay safe----Gary

We have scheduled our Dana Point/Salt Creek park tour Saturday March 13th. Please reserve that date.

We will following some of the routes used in our 2014 All CAL tour of Dana Point and Salt Creek park. We will investigate the feasibility of repeating much of that tour, to the degree possible, and get back to you with details.

Due to the pandemic we will ask each of you to bring your own lunch and chairs. We will practice social distancing, wearing masks, etc. Hopefully you all will have had the Covid-vaccine by then.

If not, and you live in Orange County, you can sign up at Othena.com. Will keep you updated on the progress in the planning--Gary

For sale - like new Engine hoist. Recently replaced ram used only one time. Also includes engine stands. Engine hoist can be folded for easy transport. ---\$100. Call Gary Howard for more details. 714-270-2614.....

Christmas lights drive by. Most of us stayed in our cars. All of us wore masks.

*Several members have indicated that they are still saving Pop tabs, from aluminum cans, which we were going to take to All CAL this year. Since the All CAL is canceled, we will be making a run to donate the pop tabs to the Ronald McDonald House in Long Beach. If you have pop tabs that you would like to send please let us know by responding to this email by this Wednesday Feb.3. We will pick them up and donate to the House. :-)
Thank Gary*

Happy Valentine's Day

Jerry Montgomery
January 8, 2021

It is with great sadness that we inform you of the passing of Jerry Montgomery. He was a member of our club for many years as well as other classic car clubs. He did not attend many 2019 meetings but helped us judge cars at our show for many years. We send our condolences to the family. ---Gary

Our Dreams. A Valentine Poem to Wife

© Richard M. Deets

*Let's ride into the sunset on a rainbow,
We won't come back until tomorrow
In the grandeur of the misty sunrise,
With stars that fill the skies in our eyes.*

*We'll paint the sunset with colors of dreams,
Dreams we create with desirous schemes.
I'll use shooting stars to write, I love you
On stellar blackboard, this night anew.*

*We'll fly past galaxies on gossamer wings.
I'll tell our favorite stars of special things
You've done since you touched my heart,
From you I can never live apart.*

*You're the face in the misty light of the moon,
The laugh that floats on cosmic breeze in June.
You're the magic spark of nature's fiery cone,
The ember of joy I call my own.*

*Venus and Cupid sigh when I tell you,
I feel so very lucky to be loving you,
The one I run to when each day is through.
I simply can't take my eyes off you.*

*The morning light may steal this moment bright
And take away the stars of the night,
We'll have the memories, by love's brush drawn,
That color our dreams and light the dawn.*

*Look into my eyes and see the sparkling stars,
Those thousand dreams that become ours,
Listen to cascading stars chime in whispers,
I'm yours until the end of time and vespers.*

Did You Know? - submitted by Roy Zazera, member of THE CRANKHANDLE CLUB

(Affiliated to S.A.V.V.A.) P.O. Box 53543, Kenilworth 7745

Cape Town, South Africa, Copied from the Crankhandle Chronicle newsletter

That one of the world's leading contributors to the development of lithium-ion batteries is Pretoria-born and UCT-educated Michael Thackeray. Thackeray is a chemist and materials researcher who has written over 200 scientific papers and holds 60 patents. Lithium-ion batteries are now ubiquitous and power many modern devices, including of course, the Tesla motor vehicles (developed by another South African boykie, Elon Musk.) Thackeray wrote a memoir called "Running with Lithium - Empowering the Earth".

THURLEY RUXTON
Beginning PHILIP VERRILL MIGHELS'

Women at the Wheel: Although the culture featured a number of stereotypes regarding women and cars, one of the most enduring associations concerned identity. Americans considered the car to be female, regularly referring to the automobile as a "her" and "she," adorning the car with feminine markers, and sometimes naming it. The car's female identity, then, gave rise to a number of unexpected outcomes, including the love and even lust that men, in particular, felt for their cars. With both women and cars having bodies, car talk often blurred the lines between the two.

In spite of the many changes in women's lives, the historical evidence reveals a significant continuity of cultural and behavioral impulses regarding American women's experience with cars.

AUTOMOBILES

The HAYNES-APPERSON is the only powerful automobile simple enough for a lady to run easily, and reliable enough for her to take far from home and count on getting back without trouble.

The Haynes-Apperson Cars have been started under conditions officially imposed by others, not once or twice, but 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17 separate times, winning first honors EVERY time with stock cars. That means reliability of the kind no one else has PROVED.

HAYNES-APPERSON CO., Kokomo, Ind., U. S. A.

Toledo

Automobilists need employ no expert mechanic or engineer to operate and keep the "Toledo" STEAM CARRIAGE in perfect repair. Although rich in superior mechanical features, simplicity of design and construction has been our constant aim in producing the Toledo. A WOMAN CAN OPERATE IT conveniently and with perfect safety. Detailed information given in our "O.T." booklet free. AUTOMOBILE DEPARTMENT AMERICAN BICYCLE COMPANY 2205 Park Row Building, New York N. Y. Retail Store, 91 Fifth Avenue

Patriarchal attitudes and assumptions of male superiority continue to dominate our understanding of the car and inform our study of history. By focusing their analyses on changing trends, historians have underappreciated the permanencies of ideological power in American culture. Automobiles offer an opportunity to analyze the ways this power has been wielded to great effect. Principally looking for change over time in such attitudes obscures their longevity. Asking different questions about women's experiences offers insights into what it was like for women at the wheel. Katherine J. Parkin's Women at the Wheel: A Century of Buying, Driving, and Fixing Cars is available on Amazon or directly through the University of Pennsylvania.
