The Orange Peel

March-April 2021

A monthly letter by the Orange County region of the Vintage Chevrolet Club of America (OCVCCA) by and for its members

Bill & Colleen Ingalls, Editors

You can find pictures of all our cars, car events and more on our web site www.ocvcca.org. Mike Sherman, our website designer, updates and maintains it.

Thank you Mike.

You can now find us on Facebook. Under search, just type in "Orange County Vintage Chevrolet Club of America". There you can add your friends that are interested in Chevy's and write stories about your Chevies.

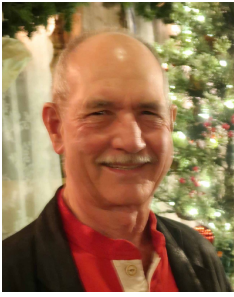

Business meetings have been postponed.

Chevy Lovers- Looks like we are finally going to get back to normal some day!!! May even have a sit-down meeting. It would be so nice to see our Chevy buddies and talk cars. Be sure you see all the great pictures in the newsletter that Bill and Colleen Ingalls took at our cruise on March 13th. Judy continues to call the Irvine Water District for information on when we are going to be able to have our meetings at their facility. Will keep you posted.

I continue to work on the 55. Dash is almost completely done including radio, dash cluster and all wiring.

I have sent Bill Ingalls contact information for a transmission shop, a driveline repair company and an auto upholsterer, all three of these companies I have used recently and highly recommend them. Hope you are enjoying your car and taking it for some rides in the beautiful weather we have been having recently, looking forward to opening restaurants and car events. Hope you are planning on joining this month's Zoom meeting. We would like to start having them at least every other month till we can meet in person. Till next time---Gary

Life is like riding a

Sandi Schroeder is "Miss Sunshine" continues

Jean Castle had surgery. She is home recuperating.

I talked to Rose Miller and she said that Jim is doing okay.

The City of Fountain Valley Foundation has agreed to go forward with their car show, which was rescheduled to this year. For those of you who are interested in attending I have attached the flyer and registration form. Judy & I have volunteered and supported this show for many years since it supports needy families in Fountain Valley. It is held on the grass at Mile Square Park in Fountain Valley and is always a fun event. Judy & I will be bringing the 57 and will be doing registration for the show. Look Forward to seeing you there. ---See flyer for more information---Gary

Special note: Due to the pandemic, there are some precautions that must be in place. At the time of the luncheon the attendees must comply with all requirements of the state, county and event location, which are in place at that time. If you chose to participate in the event, you and your guests are assuming responsibility and assuring that you are in good health and have not been exposed to anyone who is positive for COVID-19. The Orange County Mining Company will not assume any responsibility should anyone become exposed or contract the virus.

We encourage everyone to get the Covid-19 vaccine before the event.

1967 Corvette Roadster for sale

Original drive train: 327/300 engine, 4-speed Muncie, 3:36:1 differential. Numbers match. Power steering, power windows, headrests. Marlboro Maroon, black interior. 89K miles. Both tops. *I have owned this car for 30 years.* and I may be the 4th owner. Avg. 1000 miles

per year driving. I have tried to keep it as stock as possible and used correct replacement parts when necessary for cosmetics, reliability and safety. Suspension reworked recently. Excellent maintenance documentation dating back to 1985. Registrations of 2 previous owners, original owner manual. No accident history. Engine runs like new. Brakes like new. I never restored this car but I rejuvenated it recently.

It looks, runs, rides, and handles like a brand new '67 Corvette with much better, radial tires. I also have a set of 4 redline, bias belted tires, 2 extra original wheels, and the original spare that has never been on the road. \$65K. If interested contact me at johnkern@live.com

Ryan Bunch has the following Bendix treadle vac brake parts. He is asking \$300 for the lot. Contact him at **714.642.5681**

Here is an article published in our newsletter by Frances McGillis, our newsletter editor of the past.

Duck Tape !!!!!

There are millions of Uses for Duck Tape

Note: these hints are for humor and amusement purposes only. Duck tape in the wrong hands can be a dangerous weapon. Use your head, duct tape with care.

Duck Tape Backpack

Ron Khare (left) skyrocketed to the top of his school's "Cool List" when he showed up sporting his homemade, 100% Duck tape backpack. Ron has generously shared his instructions on how you can make your own Duck Tape Backpack at: http://i.am/duct_tape_backpack --- Thanks, Ron!

Duct Tape Keeps Grandma Safe

My grandmother had Alzheimer's and we couldn't keep her from climbing out of her wheelchair and falling. Even the most expensive medical restraints wouldn't keep that little lady put so we duct taped her in. Worked great. --- Lori Green

Horse Hoof and Computer Repair on a Roll

I had a horse that had an abscess in the hoof. I made a paste of meds and duck taped a diaper on the bottom of hoof for padding and to keep the meds in place. Worked great and horse was better in no time.

Also had an old computer that wasn't working so well. It went up in smoke so I took it apart and used duck tape on some of the wires that was fried. The thing is still working fine today. --- Feather Gtraining@...

Duct Tape Dental Floss

I was at work one night and a large piece of food became wedged between my back teeth. I tend bar so I asked the customers for floss. One lady had an old round tin of travel floss in her purse but the floss would not come out of the tin. I looked in our tool drawer to get a pliers to open the container. Low and behold a roll of duct tape with several strings hanging loose. I pulled a six inch piece loose and behold dental floss. The food was gone and I was no longer being irritated.
--- Forrest Rieder

Callus on a Roll

Jim used duct tape to get some more mileage out of his aching feet during a Rocky Mountain hiking trip. He thought of the duct tape as "Callus on a Roll." It weren't broke! I just lacked Duct Tape! I was rolling down Speedway Blvd. (in Tucson, Arizona) in my extremely illegal Chrysler Cordoba, tags are from 9/98 and are issued from Pennsylvania. All of the sudden ~BoooooM~ thump-thump-thump. So I pulled off the road, and to my amazement the tire is still inflated, but there is a huge mass of rubber hanging loose. Can't leave the car in a parking lot for fear the police will tow it to a junk yard. So I telephoned a friend and we took a trip to Wally World (Wal-Mart). I quickly purchased a roll of Duct Tape and we went back to the beast. After removing the tire I made several rounds over the entire tire, then put it back on and proceeded to drive almost five miles back to my house. After parking the car I checked the tire and noticed that not only was it still fully inflated, but the Duct Tape was still intact. I had to cut the Duct Tape off of the tire to take the attached pictures. This has made me a true believer! --- Kenneth LeMaster

Isn't She Lovely!

(left) Emily Bond, a high school student from Springfield, Vermont, attended her prom decked out in a formal made with strips of duct tape. She obviously looked great, and was the talk of the dance! You sure won our hearts, Emily! Duct Tape: Thick as a Brick Thanks to B.R. Henson who spotted this bricklayer (right, not the guy with Emily) with an inventive duct tape use (notice his duct taped gloves). He said, "Gloves don't last too long in this business unless you duct tape them." Body Shop on a Roll Debbie Brown got a nasty hole in the side of her beautiful white Corvette. Recognizing that duct tape is "body shop on a roll," Debbie made this repair and labeled it appropriately, "OUCH!" Hey, Debbie - if you ever want an even more professional looking job, Manco does make white Duck Tape.

Sandpaper Saver

Roland Wells reports that when you back sandpaper with duct tape before applying it to vibrating (and orbital) sanders, the **sandpaper will last up to five times longer!**

Thanks, Roland ! You're gonna save us wood workers a ton of dough!

Gutter Repair

E.C. of Denver, Colorado, lined his leaky gutters with duct tape, and they haven't allowed seepage since.

Hurricane Damage Prevention

M.R. of South Miami, Florida, tells us that duct tape came to the rescue when Hurricane Andrew stuck Miami. The storm's fury caused the sliding glass doors to detach from M.R.'s house, and wind and rain began coming in around the frames. Losing the doors would mean certain destruction to the home, so M. R. quickly applied duct tape around the door and stopped the hurricane from entering the house. The roof blew off, but the doors held fast.

Note: when Hurricane Hugo approached the East Coast, residents used 64,104 rolls of duct tape (that's 33 million yards!) supplied by Manco.

Hide-a-Key Helper

In Columbia, Maryland, G. S. keeps a spare ignition key strapped to the car's rear axle housing with duct tape. In Vadnais Heights, Minnesota, D.R. keeps her spare house key taped under the railing by her back door. Great ideas guys, but now everyone on the web knows how to rip off your car and get into your house!

Canoe Repair

We have had literally hundreds of folks tell us that duct tape is an invaluable tool for canoers. When you accidentally rip a hole in your canoe below the waterline, put a strip of duct tape both on the inside and outside of the canoe hull (dry it thoroughly first). This repair has lasted years for some. Some claim that the repair is more effective if chewed bubble gum is placed in the hole before the duct tape is applied.

Lawn Chair Webbing Repair

Sun Prairie, Wisconsin's S. S. uses duct tape to replace the webbing in his lawn chairs after the original straps wear out.

Finger Splint

Jam a finger playing basketball? Quick! Eat two Popsicles, and duct tape a stick to each side of your finger. You can use two by fours and duct tape if you break a leg, or two four by eight sheets of plywood and duct tape for a total body cast.

Always in Style!

Andy Rondeau (above) covered a hideously ugly necktie with duct tape to create this babe magnet. Good thinking, Andy!

Gator Mouth Wrap:

A. A. of Hollywood, South Carolina, keeps duct tape nearby when catching small alligators... strips off the gray roll help him keep the gators' mouths shut.

Sand Blast Mask:

D. R., a sandblaster in New London, Iowa, uses duct tape as masking tape" to cover whatever he doesn't want to blast.

Insty-Grommet:

Annoyed by the lack of grommets to hold tubes of caulk and glue to her workshop pegboard, B.S. of Old Hickory, Tennessee, started making her own. She just tapes a duct tape tab on the tube and then punches a hole in the tab. You can also fold duct tape over the corners of cardboard and paper signs then punch holes through the tape for hanging. Don't Get Stuck Without It! Suddenly find yourself in a ditch? Double duct tape over onto itself the long way for an instant tow rope. Heavier cars and trucks may want to add multiple layers.

From: www.theworkshop.net/Tips/htm/grandpa.htm

DARWIN AWARDS by Frances McGillis

For Christmas dinner, I decided to quadruple a new recipe for pepper-encrusted filet mignon. One of the ingredients was brandy, a substance I'd never cooked with before that night. The recipe called for four steaks and a cup of brandy, cooked in a 10-inch skillet. Quadrupled, the only thing that would hold the meat was a large roasting pan set over two gas burners. In retrospect, I should have realized that when four cups of brandy are poured into a roasting pan hot enough to sear meat, the resulting vapors will creep over the sides of the pan in a hurry. When these vapor ignite, the resulting fireball can, and will, remove eyebrows, nose hair, and varnish from a hapless chef's brand-new kitchen cabinets. www.darwinawards.com

April 13, 2021 via Zoom meeting - Call to Order 7PM-Gary Howard (To get on Zoom, reference the email Gary sent us all)

Introductions and Announcements-

" Call for New Members-

Administrative Actions:

VICKI HOGG 909 319 0760

A message from Colleen Ingalls, Membership chairperson

So you are now a member! Now what!

Insider information about purchasing our polo shirts and club jackets!

1. Polo shirts can be purchased at Golden Stitch Embroidery, 215 S Tustin, Orange. They have our logo saved and can embroidery it on your shirt along with your name. (714-288-0034). You can buy shirts from the shop or take in you own shirt. Most have white, some have black.

2. Jackets can have the same logo put on the front left and an Orange County logo can be purchased from our treasurer, Tom Clark, for \$20.00. Some have red jackets purchased from Lands End, others have a maroon jackets. It was voted on to go with the red jackets for those purchasing a new jacket. See April minutes as to where to buy the jackets. It is recommended to have the patch for the back of the jacket sewed on by Golden Stitch embroidery since they are quite large.
